Subject: Board Item – Action: Revised Stage III and Revised Scope and Budget submittals: Bryant-Denny Stadium Renovations and Additions UA Project #: 046-18-1816

The University of Alabama ("University") is requesting approval from The Board of Trustees of The University of Alabama ("Board") for a Revised Scope for the Bryant-Denny Stadium Renovations and Additions project ("Project"). The proposed Revised Scope entails the construction of a new enhanced Student Plaza at the south east corner of the Bryant-Denny Stadium ("Stadium") to provide students a place to gather and socialize after entering the Stadium.

The Plaza area enhancements will include canopies with fans and additional lighting, televisions, enhanced graphics and Wi-Fi network access and all necessary infrastructure and site support work.

Pursuant to Board Rule 415, the University has received renderings for the proposed Revised Scope and is requesting the Board to consider approval of the Stage III submittal based on the renderings presented.

Additionally, the University is requesting a Revised Budget from \$106,000,000 to \$107,170,000 to reflect the cost of the Revised Scope and associated soft costs.

The Project will be funded from 2019 General Revenue Bonds in the amount of \$48,458,213, Crimson Standard cash in the amount of \$36,170,000, and an internal University loan in the amount of \$22,541,787 that will be repaid by the Department of Athletics and will address approximately \$10,318,000 in campus deferred maintenance liabilities.

This Project location and program have been reviewed and are consistent with the Campus Master Plan, University Design Standards, and the principles contained therein. I have attached a Resolution, Executive Summary, Project Planning Report, Project Summary, Location map, Revised Renderings and Revised Business Plan for your review. Subject to your approval, I recommend this item be forwarded to the Chancellor for inclusion as an Action Item on the agenda of the Physical Properties Committee at the Board of Trustees meeting scheduled for April 9 – 10, 2020.

RELATIONSHIP & ENHANCEMENT OF CAMPUS PROGRAMS:

The Bryant-Denny Stadium Renovations and Additions project ("Project") is designed to enhance the student and fan experiences through additional premium seating opportunities, new social spaces, additional elevators to improve access to upper levels and other fan amenities including tours. Renovations will also enhance spaces for student athletes and recruits.

Additional premium offerings and amenities will open-up new opportunities for more participation across the fan base. A new student concourse will increase student participation by creating a social space for students to enjoy the game and stay entertained during the entire game. Furthermore, the renovations to the recruiting room and locker room, and new team tunnel, will help attract top-notch student athletes. Finally, the anticipated revenues generated from Phase I of this Project will pave the way for future enhancements to Bryant-Denny Stadium and other athletic facilities.

The proposed construction of a new enhanced Student Plaza area at the south east corner of the Stadium will enhance the student experience by providing students a place to gather and socialize after entering the Stadium. The area will include canopies and will include lighting, fans, enhanced network connectivity and televisions. New concessions and restrooms will be located in the area providing students with convenient facilities.

TUSCALOOSA, ALABAMA

ATTACHMENT NO. 1 Project: Bryant–Denny Stadium Renovation and Additions BOT Submittals: Revised Stage III and Revised Scope and Budget Meeting Date: April 9 – 10, 2020

Project Summary

BRYANT – DENNY STADIUM RENOVATION AND ADDITIONS

On August 16, 2018, The University of Alabama's Intercollegiate Athletics department unveiled the Crimson Standard facilities master plan, which featured upgrading Bryant-Denny Stadium as a cornerstone. The Bryant–Denny Stadium ("Stadium") Renovation and Additions project ("Project"), located at 920 Paul W. Bryant Drive, is included in Phase I of the plan. These improvements are designed to enhance the student and fan experiences through additional premium seating opportunities, new social spaces, additional elevators to improve access to upper levels, and other fan amenities including tours. Renovations will also enhance spaces for student athletes and recruits.

At the west side, Levels 6/U1 and 7/U2 will be extended outward (to the west) to gain additional square footage at these levels as necessary to provide for circulation and program space for the Loge Seating, Founders Club, Champions Club, and West Terrace Club. New foundations will extend to the ground along Wallace Wade and the City of Tuscaloosa is vacating the east lane of Wallace Wade to accommodate this change. Wallace Wade will still be a two-way street.

The new open-air West Terrace Club will be added at Level 6/U1 on each side of the existing Ivory Club and President's Box for a new premium seating offering. The club will feature food and beverage service, private lounge seating, upgraded lighting, and ceiling fans. Loge Seating will be extended from each side of the Terrace Club towards the edges of the expanded corner scoreboards. Also, at Level 6/U1, the Ivory Club will be reconfigured to enhance the social and food service space and upgrade finishes.

At Level 7/U2, the Press Box will be relocated to the east side of the stadium and the television broadcast box and coaches' boxes will be shifted as needed. The Press Box will be replaced with a new Founders Club that includes private Founders Suites constructed as the highest tier premium seating option in the stadium. The Club will include food and beverage service, football memorabilia display, soft seating, audio and video systems for game day viewing, and premium finishes. Individual suites will include fixed seating, private restrooms, kitchenettes, and operable window systems.

On each side of the Founders Club (existing Press Box), a new West Champions Club will be constructed in a new enclosed area for another premium seating offering. The West Champions Club will be similar to the West Terrace Club and will include food and beverage service and private lounge seating and will be in a conditioned environment. At the north side of the Stadium, the existing Walk of Champions will be extended directly into the Game Day Locker Room through the demolition of the existing concrete stairs that currently lead to Gate 1. A new tunnel will be constructed with video boards on each side to allow players to walk directly to the locker room with an enhanced pre-game experience. This new tunnel will also be used to provide a new visitor tour experience for the stadium.

The locker room will be reconfigured with new modern lockers and upgraded finishes to improve team access, pre-game and halftime meeting opportunities, and the player gameday experience. Above the locker room, the existing Recruiting Lounge will be expanded into the existing offices and other support spaces on that level in order to meet space demands, or current and future game-day recruiting activities. The existing lobby space will be reconfigured to allow recruits to enter the Lounge separately from the North Zone Club and Skybox patrons.

On the east side, the existing open-air U1 level will be enclosed to create new skyboxes and the Press Box will be relocated there. The skyboxes will include fixed seating with operable windows, kitchenettes, soft seating, and other amenities similar to existing skyboxes. The Press Box will include fixed seating, food service and dining areas, workspace, home and visitor radio booths, and other private space for game day broadcast and management.

New two-cab elevator towers will be provided on the southeast and southwest corners to allow travel from ground-level to the upper concourse. The southwest tower will also include a new service elevator to accommodate the upper level clubs. This will ease the current burden on existing elevators and provide better access for many fans. The Founders Club elevators will also be refurbished and modernized. The elevators will be bid separately in order to mitigate lead time impacts for the shop drawings and equipment.

The University currently proposes to construct a new enhanced Student Plaza at the south east corner of the Stadium. This area will provide students a place to gather and socialize after entering the Stadium. The area will include canopies, lighting, fans, enhanced network connectivity and televisions. New concessions and restrooms will be located in the area providing students with convenient facilities.
