Chancellor Sid J. Trant  
The University of Alabama System  
500 University Boulevard East  
Tuscaloosa, Alabama 35401

Dear Chancellor Trant:

I am pleased to send to you for approval under Board Rule 415 the attached documents for a Stage I submittal for the South Campus Student Recreation Center project.

The resolution requests authorization to establish a preliminary project scope, budget, and funding, as stipulated.

The item has been thoroughly reviewed and has my endorsement. With your concurrence, I ask that it be added to the agenda for The Board of Trustees at their regular meeting on September 10-11, 2026.

Sincerely,

A handwritten signature in black ink, appearing to read "P. Mohler", with a long, sweeping horizontal line extending to the right.

Peter J. Mohler  
President

## **THE UNIVERSITY OF ALABAMA**

### **Resolution**

#### **Approving the preliminary project scope and budget for the South Campus Student Recreation Center**

WHEREAS, in accordance with Board Rule 415, The University of Alabama ("University") requests approval of a Stage I submittal for the South Campus Student Recreation Center project ("Project"), to be developed within the south campus area; and

WHEREAS, the Project includes the demolition of the existing Barnwell Hall facility and the development of a new approximately 75,000-square-foot recreation facility to support the University's growing need for additional recreation and wellness space; and

WHEREAS, the new recreation facility will provide modern recreation, wellness, and fitness spaces designed to support the University's current and future needs while enhancing operational efficiency, long-term building performance, and flexibility to accommodate evolving student programs and services; and

WHEREAS, the Project will advance the University's commitment to student health and well-being by providing expanded fitness and wellness amenities, including additional weight training and cardio fitness areas, flexible spaces for functional and hybrid training, dedicated recovery areas, and spaces that support mind-body wellness activities; and

WHEREAS, the redevelopment of the south campus area will enhance recreation and wellness opportunities for nearby residential communities while creating a more balanced distribution of student recreation amenities across campus; and

WHEREAS, to deliver the new building as timely as possible, the Project will be separated into two packages: Package A – Existing Building Demolition and Package B – New Recreation Facility Construction; and

WHEREAS, the Project location and program have been reviewed and are consistent with the University Campus Master Plan, University Design Standards and the principles contained therein; and

WHEREAS, the Project will be funded from Future General Revenue Bonds in the amount of \$68,000,000 and Institutional Reserves in the amount of \$20,000,000, and will eliminate deferred maintenance liabilities in the amount of \$29,680,000; and

WHEREAS, the preliminary budget for the Project is as stipulated below:

| <b>BUDGET:</b>                             |           | <b>PRELIMINARY</b> |
|--------------------------------------------|-----------|--------------------|
| Construction Package A – Existing Building | \$        |                    |
| Demolition                                 |           | 2,250,000          |
| Construction Package B – New Construction  | \$        | 65,125,000         |
| Furniture, Fixtures and Equipment          | \$        | 7,500,000          |
| Security/Access Control                    | \$        | 500,000            |
| Telecommunication/Data                     | \$        | 750,000            |
| Contingency                                | \$        | 3,481,250          |
| UA Project Management Fee                  | \$        | 2,504,719          |
| Architect/Engineer Fee                     | \$        | 3,083,625          |
| Other <sup>4</sup>                         | \$        | 2,805,406          |
| <b>TOTAL PROJECT COST</b>                  | <b>\$</b> | <b>88,000,000</b>  |

WHEREAS, the Board has determined that the University will incur certain costs in connection with the acquisition, construction, and installation of the Project prior to the issuance of the Bonds, and the Board intends to allocate a portion of the proceeds of the Bonds to reimburse the general fund of the University for certain costs incurred in connection with the acquisition, construction, and installation of the Project paid prior to the issuance of the Bonds;

NOW, THEREFORE, BE IT RESOLVED by The Board of Trustees of The University of Alabama that:

1. The University does hereby declare that it intends to allocate a portion of the proceeds of the Bonds to pay or to reimburse the Board for capital expenditures incurred after the date that is no more than 60 days prior to the date of the adoption of this resolution, but prior to the issuance of the Bonds in connection with the acquisition, construction, and installation of the Project. This portion of this resolution is being adopted pursuant to the requirements of Treasury regulations Section 1.150-2(e).
2. The Stage I submittal package for the Project is hereby approved.
3. The preliminary Project scope, budget, and funding, as stipulated above, are hereby approved.

**PROJECT SCOPE:**

The South Campus Student Recreation Center project includes the demolition of the existing Barnwell Hall facility and the development of a new approximately 75,000-square-foot student recreation center within the south campus area. The project is intended to address the University's growing need for additional recreation and wellness space while expanding access to fitness and wellness services for students living in the southern portion of campus.

The new facility will provide modern recreation, wellness, and fitness spaces designed to support the University's current and future programmatic needs. Planned amenities include expanded weight training and cardio fitness areas, flexible spaces for functional and hybrid training, dedicated recovery and restoration areas, multipurpose spaces for mind-body wellness activities, support spaces, and associated building systems and infrastructure. The facility will be designed to provide operational efficiency, flexibility to accommodate evolving recreation programs, and long-term building performance.

Project improvements will include demolition of the existing Barnwell Hall facility; utility and infrastructure modifications; ADA accessibility improvements; landscaping; pedestrian connectivity enhancements; parking and service access improvements; and other associated site work necessary to support the new recreation center. Collectively, these improvements will enhance recreation and wellness opportunities for surrounding residential communities while providing a more balanced distribution of recreation and wellness amenities across campus.

| <p>The project will strengthen the University's comprehensive approach to student engagement by expanding access to recreation, wellness, and preventative health resources in a rapidly growing area of campus. Strategically located adjacent to major residential communities, the facility will support campus recreation programs, intramural sports, group fitness, wellness education, and informal recreation while creating opportunities for collaboration with Student Life and other campus partners. By improving access to high-quality recreation and wellness amenities, the project will enhance the student experience, promote physical and mental well-being, foster community and belonging, and support the University's goals for student success, recruitment, and retention.</p> |

Data reported on latest fiscal year data available.

Utilization factor based on Scheduled Operating Hours at each Campus – outlined below in notations.

Comments/Notations:

5. How will this Project enhance existing/new programs and undergraduate/graduate enrollments?

Estimated new Funds from Tuition/Programs

\$ NA Yr.

Comments:

The new South Campus Recreation Center will add much needed recreation space to the south side of campus. With its location near Greek Houses, on-campus residential spaces, and off-campus residents, it is poised to be the primary recreation facility of over 10,000 students in this general vicinity of campus. The programming calls for 75,000 gsf and will allow the recreation team to expand its reach on campus through increases in classes, tailored services, exercise spaces, recovery and strength training.

University Recreation currently relies primarily on the 227,130 SF Student Recreation Center (SRC) and the 81,329 SF Student Activity Center (SAC) within the Witt Center, providing approximately 308,500 SF of recreation space, or 6.5 SF per student—well below the 8–10 SF per student benchmark identified through SEC peer comparisons. Student engagement conducted as part of the programming study confirmed active use of the existing facilities while also identifying unmet demand for additional recreation and wellness opportunities, particularly wellness and recovery, weight training, and cardio, along with open fitness, studio classes, and gym activities. This existing square footage deficit not only limits the University's capacity to accommodate current demand but also constrains the ability to expand the range of recreation offerings and amenities desired by students. The proposed 75,000 SF South Campus Recreation Facility is intended to complement the existing SRC and Witt Center by addressing the identified space deficit and expanding recreation and wellness offerings. Geographically, the facility would more evenly distribute recreation across campus, providing a more convenient recreation option for students living on the south and west portions of campus, including the Sorority Row and Tutwiler areas.

6. **Has a facility user group been established to provide input for planning, programming, and design purposes?** ☒ Yes ☐ In-Progress

If yes, list key members of user group:

Dr. Steven Hood – Vice President for Student Life

Dr. Adam Sterritt - Associate Vice President for Strategic Initiatives

Dr. Matt Kerch - Executive Director of Housing and Residential Communities

Scott Elliot – Executive Director

Kristen Hargreaves – Director, Recreation Services

Darryll Hargreaves – Director, Recreation Programs

Emily Davidson – Director, Recreation Facilities

Jason Bigelow – Director of Architectural and Engineering Services

Mary Kathryn Holt – Construction Portfolio Manager

Grant Long – Project Manager

Colby Mixon – Senior Field Coordinator

Comments:

**10. Are development expenditures for this Project being used to reduce the current deferred maintenance/facilities renewal liabilities for the Campus?**

\$ 29,680,000 34 % of Total Development Costs

Comments:

**11. What other development alternatives were considered in the planning process for this Project? /13**

/13 Renovation vs. new construction, adaptive reuse of underutilized buildings, etc.

Comments:

Renovation and new construction were both evaluated during the programming and planning process for this project. Overall, new construction was determined to be the preferred solution, providing the opportunity to develop a purpose-built facility that fully meets current and future programmatic needs while maximizing operational efficiency, flexibility, and long-term building performance. Although renovation of Barnwell Hall was considered, the building's physical constraints, limited expansion potential, and inability to accommodate the desired recreation program made renovation less effective.

**12. Explain how the project will promote adequacy of campus facilities in relation to the University's Mission and scope of programs and/or services:**

Comments:

The construction of a new recreation facility will significantly enhance the adequacy of campus facilities by expanding recreation, fitness, and wellness space available to students. Compared to peer institutions, The University of Alabama provides substantially less recreation space per student, limiting its ability to meet the needs of a growing campus population. This project represents an important investment in the University's long-term commitment to student success by increasing access to modern recreation facilities that promote physical health, wellness, and engagement.

**13. How does the project correlate to the University's strategic goals?**

Comments:

This project directly correlates with multiple University goals including:

- Provide a premier education that enhances the lives of our students, graduates, and the communities they serve
- Enrich our learning and work environment by attracting, welcoming, and supporting all faculty, staff and students.
- Foster an environment that will aid in the recruitment, retention, growth, and support of outstanding faculty and staff.

**14. Which of the six University of Alabama system Core Principles does this project support?**

Comments:

- Assure that everything we do is for the purpose of improving the lives and health of the citizens of the State of Alabama.
- Be accountable for every dollar we receive while maintaining the highest standards of excellence in every program and endeavor.

**15. What would be the immediate impact on campus programs and enrollment if this project is not approved?**

Comments:

If this project is not approved, the University will be unable to meet the growing demand for recreation, fitness, and wellness facilities, resulting in continued deficiencies in recreation space per student compared to peer institutions. This would negatively impact the student experience, limit access to recreation programs and services, and reduce overall satisfaction with campus facilities.
